

Butyl Tin Mercaptide

1. CAS No: 10584-98-2
2. Molecular formula: $C_{28}H_{56}O_4S_2Sn$
3. Trait : Pale yellow clear oily liquid that has the slight sulphurous smell, soluble in various organic solvents and plastics.

4. Structural formula:
5. Quality indices

Item	Index
Main content	≥ 99%
Tin content (%)	17.3 - 18.5
Sulphur content (%)	9.5 - 10.5
Chromaticity (Pt-Co)	≤ 150#

6. Annual Producing Capacity: 3,500 Ton/Year.

7. Purpose: This chemical product features the satisfactory thermal stabilization because its fluidity proves good at the moment of PVC processing. It can be widely applied to various hard and soft products, profiled materials, injection molded products, and waxy, exhibiting superior stability and transparency.
8. Package: 200 kg steel plastic composite bucket or IBC tank.

9. Storage and personal protection:

Store in a cool, ventilated, dry place, keep container sealed and away from fire and heat. Separately with strong oxidants, edible chemicals.

Storage period of 18 months.

Prevent entry into the mouth or eyes, splashed on the skin should be washed with soap timely.
