

Dibutyltin dichloride(DBTC)

1. CAS No: 683-18-1
2. Molecular formula: $C_8H_{18}Cl_2Sn$
3. Trait: Yellow thick liquid, specially aromatic and insoluble in water

4. Structural formula:
5. Quality indices

Item	Index
Main content	$\geq 98\%$
Tin content (%)	38.0 - 39.5

6. Annual Producing Capacity: 2,500Ton/Year.
7. Purpose: As a medical immediate, this chemical product can be used with thioacetates to synthesize Dibutyltin Dichloride, and can react with caustic soda to produce ditertbutyl peroxides.

8. Package

220kg steel plastic composite bucket

9. Storage and personal protection

Store in a dry and ventilated place, do not mix with acids, alkalis, should be kept away from organic solvents, heat, moisture, UV protection.

Storage period 18 months.

Prevent entry into the mouth or eyes, splashed on the skin should be washed with soap timely. The operator should wear suitable protective clothing, work site must have good ventilation.
