

Dibutyltin Dibenzoate Solution

1. CAS No: --
2. Molecular formula: $C_{22}H_{28}O_4Sn$
3. Trait: Pale yellow liquid.
4. Solvents: butyl glycol ether (111-76-2), methyl isobutyl ketone (108-10-1)
5. Quality indices

Item	Index
Main content	98 %
Tin content (%)	10.0-11.0
Chromaticity (Pt-Co)	≤ 80#
Specific gravity (20°C)	1.010 - 1.030
Index of refraction (20°C)	1.456 - 1.466
Solids (%)	40 - 42
Na+ (ppm)	< 30

6. Annual Producing Capacity: 500 Ton/Year.
7. Purpose: This chemical product is used in polymer paints and inks as an etherification catalyst and a drying agent.
8. Package: 180 kg steel plastic composite bucket

9. Storage and personal protection:

Store in a cool, dry and ventilated place, keep the container sealed.

Separately store with oxidants, edible chemicals. Storage period of 18 months.

Prevent enter into mouth or eyes, splash on the skin should be washed with soap timely. Operator should wear anti-static clothing, wear chemical protective gloves, work site must have good ventilation.
